

# Homestead

A rural country church, true to its roots and current to this generation. Light ground, deep pine, one gold accent. Everything below is the single source of truth — the church app, the website, print, and slides all pull from this page.

## — COLOR

|                                                                                                                                    |                                                                                                                                        |                                                                                                                                       |                                                                                                                                                   |
|------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| <br><b>Ivory</b><br>#F5EFE3<br>Page ground · ~62% | <br><b>White</b><br>#FFFFFF<br>Cards, surfaces · ~16% | <br><b>Pine</b><br>#3C5A45<br>Primary · ~12%         | <br><b>Wheat / Gold</b><br>#B08636<br>The creek, one CTA · ~7% |
| <br><b>Clay</b><br>#A8573E<br>Heat, rarely · ~3%  | <br><b>Ink</b><br>#221F1A<br>Text, wordmark           | <br><b>Pine tint</b><br>#EAF0EA<br>Chips, icon wells | <br><b>Sign green</b><br>#006B54<br>LA 63 marker ONLY          |

**Proportion is the whole trick.** If a layout feels heavy, there is too much pine. If it feels loud, too much gold. Supporting neutrals: soft text **#5E574C**, faint **#938A79**, borders **#E4DAC8**, wheat tint **#F6EED9**, pine deep **#2E4636**.

**Sign green is not a brand color.** #006B54 is the real highway sign's green — a found object. It appears only inside the official LA 63 marker, and the marker is never tinted.

## — TYPE

### DISPLAY & HEADINGS

## Bitter

Weight 600. Tight tracking (about  $-0.02\text{em}$ ) on anything large. Headlines, section titles, pull quotes, numerals.

### BODY & INTERFACE

## Nunito Sans

Body copy at 17px / 1.62 on screen. Labels in 800 weight, uppercase, wide letterspacing ( $.2\text{em}$ ) in gold.

— NAMING

# “@ the Creek”

The master word is **the Creek**. “Bluff Creek Baptist Church” stays on the sign and on formal documents. Every ministry uses one construction, and ministries differ **by accent color only** — same type, same creek, never a new logo, icon, or mascot.

| LOCKUP               | ACCENT               | NOTES                                                                  |
|----------------------|----------------------|------------------------------------------------------------------------|
| Church @ the Creek   | ● Pine #3C5A45       | The gathered church                                                    |
| Worship @ the Creek  | ● Wheat #B08636      | Music ministry                                                         |
| Kidz @ the Creek     | ● Moss #6B8F5E       | <b>Spelled with a z.</b> Not a typo — it is the church's own spelling. |
| Youth @ the Creek    | ● Creek blue #557A82 | 6th–12th grade                                                         |
| Missions @ the Creek | ● Clay #A8573E       | Local and international                                                |
| Home @ the Creek     | ● Ink #221F1A        | The member app                                                         |

Set in Bitter 600, the @ in **wheat italic**, with the gold creek brushstroke underneath, left-aligned at about 60% of the text width.

— THE CREEK & THE WORDMARK

ALWAYS

- Use the **actual brushstroke lifted from the logo** — never a redrawn wavy line
- Gold #B08636 by default (~90% of uses); pine on white; ivory reversed on pine
- Points right. Minimum width 48px. **Once per screen** at full strength
- Wordmark: black on ivory or white; ivory reversed on pine only
- Clear space around the wordmark equals the cap-height of the B

NEVER

- Recolor, shadow, outline, stretch, rotate, or split the wordmark
- Use the logo script as a typeface anywhere else
- Write “at the Creek”, “Creek Kids”, or “BCBC Youth”
- Use “@” outside the lockup
- Give a ministry its own logo, icon, or mascot

— THE 63 — A QUIET THREAD

The church sits on Louisiana Highway 63, and the number runs **underneath** the brand rather than on top of it. The rules: it never competes with the creek, never becomes a logo or an app icon, and gets **one wink per surface**.

| DEVICE       | HOW IT IS USED                                                                                                                                                                              |
|--------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Route marker | The official Louisiana LA 63 shield (public domain), always #006B54, never recolored or redrawn, never large. Lives by the address, in the app header, on the pew card, in the site footer. |
